Literature 1988, Part 2 Astronomisches Rechen-Institut 2013-06-29 From the reviews:
"Astronomy and Astrophysics Abstracts has appeared in semi-annual volumes since 1969 and it has already become one of the fundamental publications in the fields of astronomy,

astrophysics and neighbouring sciences. It is the most important English-language abstracting journal in the mentioned branches. ...The abstracts are classified under more than a hundred subject categories, thus permitting a quick survey of the whole extended material. The AAA is a valuable and important publication for all students and scientists working in the fields of astronomy and related sciences. As such it represents a necessary ingredient of any astronomical library all over the world." Space Science Reviews#1 "Dividing the whole field plus related subjects into 108 categories, each work is numbered and most are accompanied by brief abstracts. Fairly comprehensive cross-referencing links relevant papers to more than one category, and exhaustive author and subject indices are to be found at the back, making the catalogues easy to use. The series appears to be so complete in its coverage and always less than a year out of date that I shall certainly have to make a little more space on those shelves for

future volumes." The Observatory Magazine#2

From the Holy Mountain William Dalrymple
2012-10-02 In the spring of A.D. 587, John Moschos and his pupil Sophronius the Sophist embarked on a remarkable expedition across the entire Byzantine world, traveling from the shores of Bosphorus to the sand dunes of Egypt. Using Moschos's writings as his guide and inspiration, the acclaimed travel writer William Dalrymple retraces the footsteps of these two monks, providing along the way a moving elegy to the slowly dying civilization of Eastern Christianity and to the people who are struggling to keep its flame alive. The result is Dalrymple's unsurpassed masterpiece: a beautifully written travelogue, at once rich and scholarly, moving and courageous, overflowing

with vivid characters and hugely topical insights into the history, spirituality and the fractured politics of the Middle East.

Republic of Armenia International Monetary Fund 2002-04-02 This paper assesses the Republic of Armenia's 2001 Article IV Consultation and a Request for a Three-Year Arrangement Under the Poverty Reduction and Growth Facility (PRGF). The economic situation in Armenia has improved since mid-2000 following the deterioration in late 1999 and early 2000. Real GDP began to recover in the second quarter and increased by 6 percent for 2000 as a whole. The authorities have made progress in reforming the energy sector, which remains a considerable financial drain on the budget and the rest of the economy.

Creation, Environment and Ethics Rebekah Humphreys 2010-09-13 Creation, Environment and Ethics aims to contribute to a critical understanding of ethics, evolution and creation, and to provide a pluralistic response to some of

the most pressing issues facing the global environment today. Following the example of Professor Robin Attfield, this volume aims to reflect the diverse responses with which theological, ethical and evolutionary discourses have contributed to the broad scope of environmental philosophy and also to ongoing debates about creation and evolution. Critiques of the work of Attfield are provided by prominent philosophers, and Attfield provides a clear and thorough response to each of these critiques in turn. The broad ranging nature of this book will appeal to environmentalists, ethicists,

theologians and students alike. Some of the contributions also offer more pragmatic approaches to environmental issues such as climate change, development and sustainability, which will be of interest to a general as well as to an academic readership.
