Bucking the Railroads on the Kansas Frontier John N. Mack 2012-12-24 As the Civil War ended, thousands of Union veterans imagined Kansas as a place to make a new beginning. Many veterans settled in the southeastern part of the state. In their struggle to establish lawful, ordered communities the settlers came into conflict with railroads intent on building through southeast Kansas to reach warm-water ports in Texas. To the settlers the railroads represented both a promise and a threat. By linking farmers and businessmen with eastern markets, the railroads guaranteed the prospects of economic gain. However, when they claimed rights to the land that settlers had already claimed, railroad monopolies were identified as a new manifestation of the same threat to republican values they had fought against in the recently concluded War. This book tells the story of the settlers' opposition to and victory over railroads and the impact on the evolution of political thought in Kansas and the American west.

**Growing Pains in Latin America**

Liliana Rojas-Suárez 2009 This book

tackles the complex issue of how to accelerate economic growth and ensure sustainability in Latin America. It first lays out the framework designed by experts in the economics and politics of growth in the region. Although simple and intuitive, the framework addresses the many ingredients that shape economic growth there, including macroeconomics, the quality of political institutions, productivity, income inequality, democracy, and resistance to reform. A second group of experts then apply the framework to five countries: Brazil, Colombia, Costa Rica, Mexico, and Peru. They provide specific policy recommendations on how to proceed with the reform process while taking into account the local conditions (economic, social, and political) that characterize the individual countries.

**Barkerville and the Cariboo**

**Goldfields** Richard Thomas Wright 2013-05-15 The stories of the men and women who dug for gold on Williams Creek are told in this revised and updated edition of a Canadian bestseller. The legendary town of Barkerville is flourishing today, just as it did more than 150 years ago, but this time under the care of professional and amateur historians. Richard Thomas Wright peels back the pages of history as he unearths the area's history and chronicles the fortunes and the follies of gold-rush-era Barkerville. The result of years of around-the-world research, *Barkerville and the Cariboo Goldfields* brings to life the men and women of the creeks who came in search of gold and left their mark on BC history. Wright mined the archives to bring forth new information on the development of the Cariboo goldfields and nearby places of interest.

Barkerville includes dozens of little-known historical photos and a complete index. It is the best, most comprehensive source of detailed information on this important national heritage site.

**Practical Guide to Financial**

**Instruments** Santosh Maller 2021-05-15

About the book Accounting for financial instruments under Ind AS is generally complex. In India, we do not have much of a history of a comprehensive and robust accounting framework for financial instruments. Historically, accounting for financial instruments is primarily based on form rather than the contractual terms of instruments. Focus on accounting for financial instruments started only since 2007. Owing to global financial crisis which raised issues regarding accounting treatment of financial instruments, various accounting standards setting bodies examined the robustness of accounting for financial instruments. Further, Ind AS transition resulted in high-quality, principles-based, globally comparable financial reporting of large Indian companies. Accounting for financial instruments under Ind AS is quite robust and comprehensive. Towards this end, this book attempts to provide insights and in-depth analysis on interpretative issues and complex principles in the Ind ASs dealing with financial instruments. The requirements of Ind AS 32, Financial instruments: Presentation, Ind AS 109, Financial instruments, and Ind AS 107 Financial instruments: Disclosures are extensively dealt with. There are separate chapters addressing: Scope of the requirements. Debt/equity

classification. Classification. Recognition and Derecognition. Subsequent measurement. Fair values and impairment. Hedge accounting. Presentation and Disclosures. Implications on key provisions of Companies Act, 2013. ICAI's Guidance Note on Accounting for Derivative Contracts. This book is intended to help the companies to identify Ind AS requirements that are relevant to them and evaluate various aspects of financial instruments accounting. The book would be an immensely useful referencer for professionals, practitioners and corporates. Key features - To simplify the reading experience, the chapters include a brief, easy to understand, summary of the relevant topic, followed by Frequently Asked Questions (FAQs) on the chapter. - Covers examples-based illustrations of complex topics. - Covers case studies on hedge accounting with journal entries, guidance for hedge documentation and effectiveness testing. - Includes real life extracts of disclosures of financial instruments. - Covers the amendment related to LIBOR and other interbank offered rates ('IBORs') issued by the Ministry of Corporate Affairs vide Companies (Indian Accounting Standards) Amendment Rules, 2020 on 24 July, 2020. - Covers key implications of Ind AS under Companies Act, 2013. **Compactifications Of Pel-type Shimura**

**Varieties And Kuga Families With**

**Ordinary Loci** Kai-wen Lan 2017-07-21

This book is a comprehensive treatise on the partial toroidal and minimal compactifications of the ordinary loci of PEL-type Shimura varieties and Kuga families, and on the canonical and subcanonical extensions of automorphic bundles. The results in this book serve as the logical foundation of several recent developments in the theory of p-adic automorphic forms; and of the author's work with Harris, Taylor, and Thorne on the construction of Galois representations without any polarizability conditions, which is a major breakthrough in the Langlands program. This book is important for active researchers and graduate students who need to understand the above-mentioned recent works, and is written with such users of the theory in mind, providing plenty of explanations and background materials, which should be helpful

for people working in similar areas. It also contains precise internal and external references, and an index of notation and terminologies. These are useful for readers to quickly locate materials they need.

**American Duroc-Jersey Record** American Duroc-Jersey Association 1916

**Doing Harder Time?** Natalie Mann 2012 Framed within the theoretical perspective of structuration theory, but also drawing on aspects of Goffman's interactionism and Bourdieu's concept of habitus, this book offers a unique interpretation of research carried out with ageing prisoners and their prison officers and shows the reality of prison for those who are reaching the end of their life course.
