The Cambridge History of Ireland: Volume 2, 1550–1730 Jane Ohlmeyer 2018-03-31 This volume offers fresh perspectives on the political, military, religious, social, cultural, intellectual, economic, and environmental history of early modern Ireland and situates these discussions in global and comparative contexts. The opening chapters focus on 'Politics' and 'Religion and War' and offer a chronological narrative, informed by the re-interpretation of new archives. The remaining chapters are more thematic, with chapters on 'Society', 'Culture', and 'Economy and

Environment', and often respond to wider methodologies and historiographical debates. Interdisciplinary cross-pollination - between, on the one hand, history and, on the other, disciplines like anthropology, archaeology, geography, computer science, literature and gender and environmental studies - informs many of the chapters. The volume offers a range of new departures by a generation of scholars who explain in a refreshing and accessible manner how and why people acted as they did in the transformative and tumultuous years between 1550 and 1730.

How to Write a Great Business Plan for Your Small Business in 60 Minutes Or Less Sharon L. Fullen 2006 One CD-ROM disc in pocket.

Guía práctica de los instrumentos financieros derivados Jean Rona 2016-06-23 Guía práctica de los instrumentos financieros derivados ilustra de manera dinámica los aspectos prácticos de estas herramientas financieras indispensables para la gestión de toda empresa moderna. Gracias a su diversidad, adaptabilidad y posibilidades de combinación, estos instrumentos abren un enorme campo para la innovación e ingeniería financiera. Por ello, esta obra

considera el uso de los instrumentos financieros derivados en diferentes contextos, como la cobertura del riesgo cambiario y del riesgo de tasas de interés, las inversiones en acciones o mercadería, la protección contra fluctuaciones de precios de los insumos, entre otros. El objetivo es adaptar el tema tratado a las necesidades de las empresas e inversionistas peruanos. Sin embargo, el contenido sirve también para aplicarlo a otras realidades latinoamericanas. Mediante explicaciones de los fundamentos y numerosos ejemplos, se considera el uso de los derivados en diferentes contextos importantes:

cobertura del riesgo cambiario y del riesgo de tasas de interés, inversiones en acciones o mercadería y protección contra fluctuaciones de precios de los insumos.
