Multinational Enterprises and Host Country Development Holger Görg 2016-06-24 Multinational Enterprises and Host Country

Development is a unique collection of papers looking at different aspects of the link between multinational enterprises and their effects on the host countries' economies. The volume studies effects of multinationals on R&D, innovation, productivity, wages, as well as growth and survival of firms in the host countries, and distinguishes direct and indirect effects through spillovers. All the analyses are conducted using firm level data for countries as diverse as China, Ireland, Sweden, Ghana, the UK or a group of countries in Central and Eastern Europe. This volume is a valuable reading for graduate students and researchers wishing to investigate the impact of multinationals.
