Government Finance Statistics Yearbook, 2008 International Monetary Fund. Statistics Dept. 2009-03-19 Detailed annual data for Fund member governments are supplied on revenue income by source (tax, lending, bonds, etc.), and expenditure by sector (defense, education, health, etc.) for all levels of government (national, state, local). Topics covered include deficit/surplus or total financing, revenues or grants, expenditures, lending minus repayments, domestic financing, foreign financing, domestic debt or total debt, and foreign debt. The Yearbook provides data on budgetary operations, extra-budgetary operations, social security, and consolidated financial operations of central governments. A section of the Government Finance Statistics Yearbook is devoted to a cross-country comparison of data.

Statistics for Psychologists Brian S. Everitt 2001-04 Built around a problem solving theme, this book extends the intermediate and advanced student's expertise to more challenging situations that involve applying statistical methods to real-world problems. Data relevant to these problems are collected and analyzed to provide useful answers. Building on its central problem-solving theme, a large number of data sets arising from real problems are contained in the text and in the exercises provided at the end of each chapter. Answers, or hints to providing answers, are provided in an appendix. Concentrating largely on the established SPSS and the newer S-Plus statistical packages, the author provides a short, end-of-chapter section entitled Computer Hints that helps the student undertake the analyses reported in the chapter using these statistical packages.
