Intellectual Property Policy, Law and Administration in

Africa Caroline B. Ncube

2015-10-16 This book examines the harmonisation of Intellectual Property (IP) policy, law and administration in

Africa. Two recent

developments have brought

this topic to the fore. The first is the escalation of long-standing

efforts to establish a Pan-

African Intellectual Property

Organisation (PAIPO), a

continental initiative. The

second is the current sub-

regional attempt to

operationalise the IP provisions of the Southern African

(SADC)'s Protocol on Trade (articles 9b and 24) and its Protocol on Science, Technology and Innovation (article 2m). Intellectual Property Policy, Law and Administration in Africa discusses the viability of such initiatives with particular reference to the current socio-economic status of Africa's nations. With a view to contributing to future developments in Africa at both a continental and sub-regional level, the author considers this issue through the lens of advancing the public interest in IP. Ncube argues that harmonisation initiatives ought to be crafted in a way that is supportive of the development aspirations of African states. Consequently, she urges due consideration of individual states' unique conditions and aspirations in any harmonisation venture, a necessity outlined in article 7 of the Agreement on Trade Related Aspects of Intellectual Property Rights. This book will be of great relevance to scholars and policy makers with

an interest in IP law and African law in general.

Illustrations Graham T.

Richardson 2012-12-06 person to prepare illustration copy at a pre-professional level-copy that is, however, often usable for routine purposes-and/or to communicate better with graphics specialists who will prepare the final illustrations. The skills necessary to take the final step of producing finished camera-ready illustrations are, unfortunately, based very much on actual hands-on experience and are thus beyond the ability of this or any other book to instill satisfactory competence in. Illustrations should also prove to be a highly useful reference work for professional illustrators. The wide variety of training and work experiences by which they have acquired their skills may not have provided full acquaintance with all of the exceptionally diverse kinds of information to be found here. There are, moreover, few disciplines whose practitioners cannot profit from an invigorating refresher course. After nearly seven years of work, then, I am pleased to put forward a book with many answers pertaining to the

proper selection and preparation of informational illustrations. All such questions and their actual solutions, however, must remain up to you, the inquiring and attentive reader.
