DECLASSIFYING 9/11 Aidan Monaghan 2012-07-20 By reading between the lines, connecting dots hidden in plain view and seeking corroboration of the alleged version of September 11 events from regional and federal governments by way of Freedom of Information laws, September 11 researcher Aidan Monaghan provides evidence of not only a seeming cover-up surrounding the events of September 11 but has also developed scientifically based and peer reviewed alternatives for the reported events that unfolded over the skies of America that day.

Joel Whitburn Presents Billboard Top 10 Singles Charts Joel Whitburn 2001 One of our all-time bestsellers now spans the entire rock era! Billboard Top 10 Singles Charts 1955-2000 draws each weekly Top 10 from Billboard's "Best Sellers" charts for the years 1955, 1956, 1957 and the first half of 1958. From then on, it's the "Hot 100" all the way, with the weekly Top 10s of the premier Pop chart from its debut on August 4, 1958 right through the end of 2000. Each weekly Top 10 chart shows each record's current week's chart position, previous week's chart position, total weeks charted, label and number, and all "Hot 100" hits peak positions are shown in boldface type. Special sections include the highest debuts and biggest movers of each year, decade, and all time; the fastest and slowest movers to #1; and the biggest jumps to and falls from #1. (650+ pages, 6 inch. x 9-1/4 inch.)

Ukraine 1999 "The government deficits that have played such a prominent role in Ukraine's continued economic decline reflect in large measure the fact that government has been slow to relinquish the role it played during the Soviet era." Since independence, Ukraine has suffered one of the most severe economic declines of any country in this century. While other transition countries in the region successfully replaced their old command economies with market economies, Ukraine continued to protect unprofitable enterprises to preserve employment and income levels. To support this strategy, the government has borrowed more money than it takes in and, at the same time, competes with private enterprise domestically for credit. As Ukraine's economic foundations proceed to crumble, the Ukrainian Government, the World Bank, and the International Center for Policy Studies in Kyiv examined the issues surrounding the crisis. The group analyzed the data and policy studies that were prepared by various Ukrainian and World Bank teams of experts and formulated recommendations for strategies to stem the growing tidal wave of economic collapse now threatening Ukraine. This report presents the issues that are creating these crises and outlines a course to prevent a crash. This report will be of interest to government agencies, economists, bankers, and academics.

Iatrogenic Vascular Injuries Sven-Erik Bergentz 2012-12-06 This small but information-packed book is the first to focus exclusively on iatrogenic vascular injuries. It is a timely first, for the scope and magnitude of this subject have reached almost epidemic proportions recently, as a result of exponential increases in the use of invasive diagnostic and therapeutic procedures by almost every medical and surgical speciality. The data on vascular trauma from "civilian" experiences are becoming dominated by injuries of iatrogenic cause. Even were it not for medical-legal liability, the importance of prompt recognition and correct treatment of injuries that we ourselves cause is obvious, as is the need for preventive measures to be clearly identified and adopted. This book serves these needs well through a nicely balanced focus on prevention, on the one hand, with its comprehensive review of epidemiology and etiology, and on management, on the other, with its practical comments on diagnosis, treatment and outcome. The organization of this book makes it very usable. After chapters on both arterial and venous catheterization injuries, there follows a thorough analysis of injuries associated with percutaneous transluminal angioplasty and other endovascular procedures. Then, after a chapter on noninvasive vascular injuries, there follows a series of chapters dealing with vascular injuries associated with the practice of specific specialties: radiation therapy, orthopedics, neurosurgery (especially lumbar disc surgery), gynecology, head and neck surgery, urology, adult general surgery, and pediatric surgery.
