International Financial Statistics , August 2017 International Monetary Fund. Statistics Dept. 2017-07-31 This paper discusses currencies’ relative importance in international trade and finance, the weights are based on the value of the exports of goods and services of the members issuing these currencies and the balances of their currencies officially held by members of the IMF. From January 1981 to December 1985, the currencies and currency weights of the five members having the largest exports of goods and services during 1975–1979 were the US dollar, 42 percent; deutsche mark, 19 percent; French franc, Japanese yen, and pound sterling, 13 percent each. From January 1986 through December 1990, reflecting the 1980–1984, the weights had changed to US dollar, 42 percent; deutsche mark, 19 percent; Japanese yen, 15 percent; French franc and pound sterling, 12 percent each. From January 1991 to December 1995, reflecting the years 1985–1989, the weights were US dollar, 40 percent; deutsche mark, 21 percent; Japanese yen, 17 percent; French franc and pound sterling, 11 percent each.

Strategies for Palladium-Catalyzed Non-directed and Directed C-H Bond Functionalization Anant R. Kapdi 2017-06-23 Strategies for Palladium-Catalyzed Non-directed and Directed C-H Bond Functionalization portrays the complete scope of these two aspects of C-H bond functionalization in a single volume for the first time. Featured topics include the influence of palladacyclic systems in C-H bond functionalization (need for newer catalytic systems for better efficiency), mechanistic aspect of the functionalization strategies leading to better systems, and applications of these methodologies to natural product synthesis and material synthesis. Addresses the involvement of catalytic systems (palladacycles) for better functionalization of (hetero)arenes to emphasize the need for developing better, more selective systems Covers the use of powerful mechanistic tools for understanding and assisting the development of better functionalization strategies Discusses the finer aspects of C-H bond functionalization, such as control of regioselectivity with or without directing groups Includes a chapter detailing the synthesis of naturally occurring molecules or functional molecules via both pathways for assessing the applicability of the functionalization strategies

Reading Material in Early Modern England Heidi Brayman Hackel 2005-02-17 Reading Material in Early Modern England rediscovers the practices and representations of sixteenth- and seventeenth-century English readers. By telling their stories and insisting upon their variety, Brayman Hackel displaces both the singular 'ideal' reader of literacy theory and the elite male reader of literacy history.

International Financial Statistics, May 2017 International Monetary Fund. Statistics Dept. 2017-04-28 This paper provides notes to the country tables in the monthly issues provide information about exceptions in the choice of the consumer price index and the period average exchange rate index. For a relatively small number of countries, notes

in the country tables in the monthly issues indicate where alternative price indices, such as the wholesale/producer price index or a weighted average of several price indices, are used; where data constraints have made it necessary to use weighting schemes based on aggregate bilateral non-oil trade data; and where trade in services (such as tourism) has been taken into account. When a country joins the IMF, it is assigned a quota that fits into the structure of existing quotas. Quotas are considered in the light of the member’s economic characteristics, and taking into account quotas of similar countries. Quotas are reviewed at intervals of not more than five years. The reviews take account of changes in the relative economic positions of members and the growth of the world economy.

The Provisions of War Justin Nordstrom 2021-09-06 The Provisions of War examines how soldiers, civilians, communities, and institutions have used food and its absence as both a destructive weapon and a unifying force in establishing governmental control and cultural cohesion during times of conflict. Historians as well as scholars of literature, regional studies, and religious studies problematize traditional geographic boundaries and periodization in this essay collection, analyzing various conflicts of the nineteenth and twentieth centuries through a foodways lens to reveal new insights about the parameters of armed interactions. The subjects covered are as varied and inclusive as the perspectives offered—ranging from topics like military logistics and animal disease in colonial Africa, Indian vegetarian identity, and food in the counterinsurgency of the Malayan Emergency, to investigations of hunger in Egypt after World War I and American soldiers’ role in the making of US–Mexico borderlands. Taken together, the essays here demonstrate the role of food in shaping prewar political debates and postwar realities, revealing how dietary adjustments brought on by military campaigns reshape national and individual foodways and identities long after the cessation of hostilities

Howard Pyle Howard Pyle 2004 First edition, one of only 60 numbered and signed sets bound thus (Museum Edition) and containing an extra eight page signature at the beginning. Contains a tipped in wood-engraving pulled from the original block and printed on Mohawk Superfine by Leonard Seastone at his Tideline Press. At the dawn of the 20th century, Howard Pyle was America's most famous and influential illustrator. Through the illustrated pages of Harper's, Scribner's and Century magazines, the American public first became acquainted with the illustrator that they would come to love. Both by example and through his teaching, Pyle molded and influenced generations of young artists who have continued his unique vision of illustration far beyond his own lifetime. Published 93 years after the death of Howard Pyle, this book celebrates the enduring and far-reaching achievements of America's foremost illustrator. Illustrated with over 3300 images, this important research tool represents the complete record of all known Howard Pyle illustrations, hundreds of which have not been reproduced since their original publication over 100 years ago. Paul Preston Davis, with exhaustive research and dogged perseverance, has produced a much-needed resource for the study of Howard Pyle and American illustration. His work greatly expands upon the data originally collected by Willard S. Morse and Gertrude Brincklé in 1921. For the first time, full-color images (approx. 1.25 x 2.25 inches) of each of Pyle's published and unpublished works are provided in a single source. Most importantly for the researcher, Davis has indexed and re-indexed the information, creating a tool that is as easy to use as it is valuable. This remarkable and comprehensive set of books embodies years of research and will be valued and treasured by researchers, scholars, librarians, and collectors alike. Co-published with The Delaware Art Museum.
