Geosimulation Itzhak Benenson 2004-08-20 Geosimulation is hailed as 'the next big thing' in geographic modelling for urban studies. This book presents readers with an overview of this new and innovative field by introducing the spatial modelling environment and describing the latest research and development using cellular automata and multi-agent systems. Extensive case studies and working code is available from an associated website which demonstrate the technicalities of geosimulation, and provide readers with the tools to carry out their own modelling and testing. The first book to treat urban geosimulation explicitly, integrating socio-economic and environmental modelling approaches Provides the reader with a sound theoretical base in the science of geosimulation as well as applied material on the construction of geosimulation models Cross-references to an author-maintained associated website with downloadable working code for readers to apply the models presented in the book Visit the Author's Website for further information on Geosimulation, Geographic Automata Systems and Geographic Automata Software <http://www.geosimulationbook.com>

Essential Echocardiography Timothy M. Maus 2022 Building on the success of the previous edition, this review book includes all of the original content plus several new chapters dedicated to the education and implementation of transthoracic echocardiography and point-of-care ultrasonography. Chapters feature board review-style questions and answers to assist readers with board exam preparation. This book also includes the most up-to-date echocardiography content and practice guidelines. This book fills an educational gap in the perioperative and critical care echocardiography landscape. It addresses essential perioperative and critical care echocardiography topics in an accessible manner for those who provide acute care and resuscitation in any environment, including the operating room, intensive care unit, and the emergency department. Essential Echocardiography, 2nd edition, is expertly written for the practitioner with limited knowledge of echocardiography preparing for either the Examination of Special Competence in Basic Perioperative TEE (Basic PTEeXAM) or the Examination of Special Competence in Critical Care Echocardiography (CCEeXAM).

The Long Trail Deborah Hopkinson 2010-08-10 Klondike or bust! Stowing away on the steamer Al-Ki was only the beginning of Davey's daring quest to find his uncle in the Klondike. Now he's camping in the rough-and-tumble town of Skagway, working for his photographer friend Erik Larsen, and preparing for his next challenge -- the steep, treacherous, hundreds-of-miles-long Chilkoot Trail. When Erik falls ill on the trail, Davey fears he will not be able to go on -- until he gets help from a surprising ally.
