Love Or Greatness (Routledge Revivals) Roslyn Wallach Bologh 2009-12-15 This work, first published in 1990, reissues the first thorough examination of the essentially masculine nature of Max Weber's social and political thinking. Through a detailed examination of his central texts, the author demonstrates Weber's masculine reading of 'social life' and shows how his work advocates a masculine form of life that poses a challenge to contemporary women and to feminism. In particular, she addresses the patriarchal implications of Weber's belief in the need to relegate the ethic of brotherly love to a private sphere in order to make possible rational action and the achievement of greatness in the public sphere.

Simple Guide to Attending Muslim Ceremonies Akasha Lonsdale 2011-09-01 In today's multicultural society we are increasingly likely to meet and become friends with people from different religious backgrounds, and to find ourselves attending an unfamiliar ceremony. When this happens, there can be few of us who know exactly what to expect, or are confident about how to behave. This chapter from Do I Kneel or Do I Bow? will tell you everything you need to understand and take part in a Muslim ceremony. Armed with this basic information, you will feel relaxed enough to enjoy the occasion—and perhaps inspired to discover more about the spiritual world view of another cultural tradition.

Dictionary of Marine Natural Products with CD-ROM John W. Blunt 2007-09-19 Driven by the vast, yet largely unexplored, potential of bioactive organisms in the ocean and improvements in analytical techniques to facilitate their research, natural products scientists face an increasing need for single-source reference cataloging the current knowledge and state-of-the-science regarding marine natural products.

Dictionary of Marine Natural Products with CD-ROM presents a comprehensive resource for more than 25,000 known natural products drawn from marine organisms. Following a similar format to the Chapman and Hall Chemical Database, this dictionary indexes each product by chemical name, CAS registry number, and compound type. Documenting all known marine natural products, each entry includes the biological source, chemical structure, physical properties, biological activity, and literature references for each compound. An accompanying CD-ROM is fully text and structure-searchable and enables unique access to this valuable resource. The editors, John Blunt and Murray Munro, both pioneers in the field, also provide an introductory monograph that describes structural compound types and marine organisms. Marine organisms offer a delicate, yet plentiful source for a vast array of novel products whose unique structural features make them suitable drug candidates, pesticides, marine anti-fouling agents, and more. The Dictionary of Marine Natural Products Web Version gives researchers a new tool for developing pharmaceutical and chemical applications of marine natural products.
