100 People Who Are Screwing Up America

Bernard Goldberg 2009-10-13 The number one New York Times bestselling author of *Bias* delivers another bombshell—this time aimed at . . . 100 People Who Are Screwing Up America No preaching. No pontificating. Just some uncommon sense about the things that have made this country great—and the culprits who are screwing it up. Bernard Goldberg takes dead aim at the America Bashers (the cultural elites who look down their snobby noses at "ordinary" Americans) . . . the Hollywood Blowhards (incredibly ditzy celebrities who think they're smart just because they're famous) . . . the TV Schlockmeisters (including the one whose show has been compared to a churning mass of maggots devouring rotten meat) . . . the Intellectual Thugs (bigwigs at some of our best colleges, whose views run the gamut from left wing to far left wing) . . . and many more.

Goldberg names names, counting down the villains in his rogues' gallery from 100 all the way to 1—and, yes, you-know-who is number 37. Some supposedly "serious" journalists also made the list, including the journalist-diva who sold out her integrity and hosted one of the dumbest hours in the history of network television news. And there are those famous miscreants who have made America a nastier place than it ought to be—a far more selfish, vulgar, and cynical place. But Goldberg doesn't just round up the usual suspects we have come to know and detest. He also exposes some of the people who operate away from the limelight but still manage to pull a lot of strings and do all sorts of harm to our culture. Most of all, *100 People Who Are Screwing Up America* is about a country where as long as anything goes, as one of the good guys in the book puts it, sooner or later everything will go. This is serious stuff for sure. But Goldberg will also make you laugh as he harpoons scoundrels like the congresswoman who thinks there aren't

enough hurricanes named after black people, and the environmentalist to the stars who yells at total strangers driving SUVs—even though she tools around the country in a gas-guzzling private jet. With *Bias*, Bernard Goldberg took us behind the scenes and exposed the way Big Journalism distorts the news. Now he has written a book that goes even further. This time he casts his eye on American culture at large—and the result is a book that is sure to become the voice of all those Americans who feel that no one is speaking for them on perhaps the most vital issue of all: the kind of country in which we want to live.

as Steve Coll told the story of globalization

in all these commodities. But few people know much about Koch Industries and that's because the billionaire Koch brothers have wanted it that way. For five decades, CEO Charles Koch has kept Koch Industries quietly operating in deepest secrecy, with a view toward very, very long-term profits. He's a genius businessman: patient with earnings, able to learn from his mistakes, determined that his employees develop a reverence for free-market ruthlessness, and a master disrupter. These strategies made him and his brother David together richer than Bill Gates. But there's another side to this story. If you want to understand how we killed the unions in this country, how we widened the income divide, stalled progress on climate change, and how our corporations bought the influence industry, all you have to do is read this book. Seven years in the making, Kochland "is a dazzling feat of investigative reporting and epic narrative writing, a tour de force that takes the reader deep inside the rise of a vastly powerful family corporation

that has come to influence American workers, markets, elections, and the very ideas debated in our public square. Leonard's work is fair and meticulous, even as it reveals the Kochs as industrial Citizens Kane of our time" (Steve Coll, Pulitzer Prize-winning author of Private Empire). **Age of Betrayal** Jack Beatty 2008 Capturing a world of social unrest and upheaval, a study of America's Gilded Age offers a fresh analysis of a post-Civil War era marked by corrupt politicians, racism, a tyranny of wealth, the power of the business world over the rights of workers, labor unrest, violence, and the corporate rule of government. Reprint. 12,500 first printing. Suzanne Treister Suzanne Treister 2012 HEXEN2.0 is the sequel to HEXEN 2039 which imagined new technologies for psychological warfare through investigating links between the occult and the military in relation to histories of witchcraft, the US film industry, British Intelligence agencies, Soviet brainwashing, behavior control experiments of the US Army's

MKULTRA program and more recent practices of its Civil Affairs and Psychological Operations Command (PSYOP), in light of contemporary neuro-scientific research. HEXEN2.0 delves deeper into the histories of scientific research behind government programs of mass control, in tandem with counter-cultural and grass roots movements, and creates a space for the imagining of alternative future scenarios. HEXEN2.0 charts, within a framework of post-WWII US governmental and military imperatives, the coming together of diverse scientific and social sciences through the development of cybernetics, the history of the internet, the rise of Web 2.0 and mass intelligence gathering, and the implications for the future of new systems of societal manipulation towards a control society. Furthermore, HEXEN2.0 investigates the participants of the seminal Macy Conferences¹ (1943-1956) - whose primary goal was to set the foundations for a general science of the workings of the human mind - alongside specific critics of

technological society such as Theodore Kaczynski/Unabomber, current profiles of Anarcho-Primitivists and Post Leftists, and traces the precursory ideas of Thoreau, Heidegger, Adorno and others in relation to fantasies of utopic/dystopic futures from science-fiction literature and film. Through representing and re-examining these subjects and histories through the lens of occult belief systems and ideas of the supernatural HEXEN2.0 takes us to a hypnotic, mesmerizing space of early technological fantasy and theory to hallucinate feedback from the past from where one may imagine and construct possible alternative futures. The information in HEXEN2.0 is based on actual events, people and histories.

Enacting History Scott Magelssen 2011-03-18
Enacting History is a collection of new essays exploring the world of historical performances. The volume focuses on performances outside the traditional sphere of theatre, among them living history museums, battle reenactments,

pageants, renaissance festivals, and adventure-tourism destinations. This volume argues that the recent surge in such performances have raised significant questions about the need for, interest in, and value of such nontraditional theater. Many of these performances claim a greater or lesser degree of historical "accuracy" or "authenticity," and the authors tease out the representational and historiographic issues related to these arguments. How, for instance, are issues of race, ethnicity, and gender dealt with at museums that purport to be accurate windows into the past? How are politics and labor issues handled in local- or state-funded institutions that rely on volunteer performers? How do tourists' expectations shape the choices made by would-be purveyors of the past? Where do matters of taste or censorship enter in when reconciling the archival evidence with a family-friendly mission? Essays in the collection address, among other subjects, reenactments of period cookery and cuisine at a Maryland

renaissance festival; the roles of women as represented at Minnesota's premiere living history museum, Historic Fort Snelling; and the Lewis and Clark bicentennial play as cultural commemoration. The editors argue that historical performances like these-regardless of their truth-telling claims-are an important means to communicate, document, and even shape history, and allow for a level of participation and accessibility that is unique to performance. Enacting History is an entertaining and informative account of the public's fascination with acting out and watching history and of the diverse methods of fulfilling this need. The Italian-Americans Catherine M. Petrini 2002

Uncivil Liberties Stephen Fox 2014-07-18
"Outstanding Book" – Gustavus Myers Center for the Study of Human Rights in the United States, 1991 "Outstanding Literary Achievement" – American Book Award, 1992
Before the publication of *UnCivil Liberties*, few people knew that in February 1942 the U.S. government forced thousands of West Coast Italian and German aliens to relocate to so-called safe zones. Law-abiding people who had lived in the United States for decades, including some who had sons in the armed forces, were subjected to surveillance and harassment. The government eventually abandoned this relocation program, but only because the process of moving so many proved economically and politically unfeasible. Other Italians, including American citizens whose

loyalty was deemed doubtful, were interned or excluded from the West Coast without trial. In *UnCivil Liberties*, Stephen Fox combines interviews with Italian Americans, government files and newspaper accounts to reveal this previously untold chapter in American history. The testimonies of those who were the objects of the government's unfounded suspicions and accusations provide a vivid portrait of the times and illuminate a neglected episode. Fox also connects his discussion of the Italian American experience with that of other suspected 'enemy' aliens during World War II, illustrating how a national security crisis led to the use of group labels and challenged the government's commitment to its libertarian ideals. The voices in *UnCivil Liberties* will speak to students, scholars and all readers interested in civil liberties.

Poems For Paula Tom McGreevy 2008

Rape New York Jana Leo 2011-02-08 In the gripping first pages of this true story, Jana Leo relives the moment-by-moment experience of a home invasion and rape in her own apartment in Harlem. After she reports the crime, she waits. Between police disinterest and squabbles from the health insurance company over who's going to pay for the rape kit, she realizes that the violence of such an experience does not stop with the crime. Increasingly concerned that the rapist will return, she seeks help from her landlord, who refuses to address security issues on the property. She comes to understand that it is precisely these conditions of newly gentrified lower-income areas which lead to vulnerable living spaces, high turnover rates, and ultimately

higher profits for slumlords. In this most singular memoir, Leo weaves a psychological journey into an analysis that becomes equally personal: the fault lines of property mismanagement, class vulnerabilities, and a deeply flawed criminal justice system. In a stunning conclusion, Leo has her day in court.
