Something Wilder Christina Lauren 2022-05-17 "Growing up the daughter of notorious treasure hunter and absentee father Duke Wilder left Lily without much patience for the profession . . . or much money in the bank. But Lily is nothing if not resourceful, and now uses Duke's coveted hand-drawn maps to guide tourists on fake treasure hunts through the treacherous and storied red rock canyons of Utah. It pays the bills but doesn't leave enough to fulfill her dream of buying back the beloved ranch her father sold years ago. Treasured land wasn't her only loss that fateful summer, and when the man she once loved walks back into her life with a motley crew of his friends ready to hit the trails, the usually self-reliant cowgirl is thrown. Frankly Lily would like to take him out into the wilderness and leave him there. Leo Grady knew mirages were a thing in the desert, but they'd barely left civilization when the silhouette of his greatest regret comes into focus in the flickering light of the campfire. Ready to leave the past behind them, Leo wants nothing more than to reconnect with his first and only love. But Lily Wilder is all business, drawing a clear line in the sand: it's never going to happen. Unfortunately, emotions won't be led like a horse to water, and even out in the desert it's impossible to ignore the heat of attraction. But when the trip goes horribly and hilariously wrong, the group realizes the idea of hidden treasure wasn't so crazy after all. Finding themselves alone in the isolated and dangerous mazes of the Canyonlands, Leo and Lily must decide whether they trust Duke's maps-and each other-enough to risk their lives and hearts for the adventure of a lifetime"--

The Digital Galleries of Our Minds Noah Levin 2018-12-31 The Digital Galleries of Our Minds (A FREE BOOK!) is a thought-provoking collection of philosophically inspired science-fiction short stories by Noah Levin. The stories revolve around the central theme of how memories relate to our identities and how potential technologies can alter this relationship. The three stories contained within this short volume (Rhonda, Daydream Believer, and Percival and the Grail) each explore different issues in different ways. These stories have the same feel as an episode of Twilight Zone or Black Mirror, and any fans of these shows, sci-fi short stories, or just a good story in general, will enjoy this work. The author, Noah Levin, has published both academic articles and book chapters, but this is his first independent publication. Find all of his work at <http://ngefarpress.com>

The Gallery John Horne Burns 2013-11-20 "The first book of real magnitude to come out of the last war." –John Dos Passos John Horne Burns brought The Gallery back from World War II, and on publication in 1947 it became

a critically-acclaimed bestseller. However, Burns's early death at the age of 36 led to the subsequent neglect of this searching book, which captures the shock the war dealt to the preconceptions and ideals of the victorious Americans. Set in occupied Naples in 1944, The Gallery takes its name from the Galleria Umberto, a bombed-out arcade where everybody in town comes together in pursuit of food, drink, sex, money, and oblivion. A daring and enduring novel—one of the first to look directly at gay life in the military—The Gallery poignantly conveys the mixed feelings of the men and women who fought the war that made America a superpower. Galleries of Friendship and Fame Elizabeth Siegel 2010 "An investigation of the origin, development & practices of 19th century American photograph albums, this book argues that the family album helped to transform the nature of self- presentation at the cusp of modernity"-- OCLC

Museum Gallery Interpretation and Material Culture

Juliette Fritsch 2012-12-06 Museum Gallery Interpretation and Material Culture publishes the proceedings of the first annual Sackler Centre for Arts Education conference at the Victoria and Albert Museum (V&A) in London. The conference launched the annual series by addressing the question of how gallery interpretation design and management can help museum visitors learn about art and material culture. The book features a range of papers by leading academics, museum learning professionals, graduate researchers and curators from Europe, the USA and Canada. The papers present diverse new research and practice in the field, and open up debate about the role, design and process of exhibition interpretation in museums, art galleries and historic sites. The authors represent both academics and practitioners, and are affiliated with high quality institutions of broad geographical scope. The result is a strong, consistent representation of current thinking across the theory, methodology and practice of interpretation design for learning in museums.

The \$12 Million Stuffed Shark Don Thompson 2010-09-25 Why would a smart New York investment banker pay twelve million dollars for the decaying, stuffed carcass of a shark? By what alchemy does Jackson Pollock's drip painting No.5 1948 sell for \$140 million? 'The \$12 Million Dollar Stuffed Shark' is the first book to look at the economics of the modern art world, and the marketing strategies that power the market to produce such astronomical prices. Don Thompson talks to auction houses, dealers, and collectors to find out the source of Charles Saatchi's Midas touch, and how far a gallery like White Cube has contributed to Damien Hirst becoming one of the highest-earning artists in the world.

Thirsty Mermaids Kat Leyh 2021-02-09 The raucous and literal fishes-out-of-water graphic novel from prolific comic artist and writer Kat Leyh, creator of the acclaimed Snapdragon and coauthor of the Eisner and GLAAD Award-winning series Lumberjanes. Fresh out of shipwreck wine, three tipsy mermaids decide to magically masquerade as humans and sneak onto land to indulge in much more drinking and a whole lot of fun in the heart of a local seaside tourist trap. But the good times abruptly end the next morning as, through the haze of killer hangovers, the trio realizes they never actually learned how to break the spell, and are now stuck on land for the foreseeable future. Which means everything from: enlisting the aid of their I-know-we-just-met-can-we-crash-with-you bartender friend, struggling to make sense of the world around them, and even trying to get a job with no skill set...all while attempting to somehow return to the sea and making the most of their current situation with tenacity and camaraderie (especially if someone else is buying).

A Guide to the Exhibition Galleries of the British Museum, Bloomsbury British Museum 1884

ARTnews 2006

The People's Galleries Giles Waterfield 2015-07-07 This innovative history of British art museums begins in the early 19th century. The National Gallery and the South Kensington Museum (now the Victoria and Albert Museum) in London may have been at the center of activity, but museums in cities such as Glasgow, Leeds, Liverpool, Manchester, and Nottingham were immensely popular and attracted enthusiastic audiences. The People's Galleries traces the rise of art museums in Britain through World War I, focusing on the phenomenon of municipal galleries. This richly illustrated book argues that these regional museums represented a new type of

institution: an art gallery for a working-class audience, appropriate for the rapidly expanding cities and shaped by liberal ideals. As their broad appeal weakened with the new century, they adapted and became more conventional. Using a wide range of sources, the book studies the patrons and the publics, the collecting policies, the temporary exhibitions, and the architecture of these institutions, as well as the complex range of reasons for their foundation.

Museum and Gallery Publishing Sarah Anne Hughes

2019-06-20 Museum and Gallery Publishing examines the theory and practice of general and scholarly publishing associated with museum and art gallery collections. Focusing on the production and reception of these texts, the book explains the relevance of publishing to the cultural, commercial and social contexts of collections and their institutions. Combining theory with case studies from around the world, Sarah Anne Hughes explores how, why and to what effect museums and galleries publish books. Covering a broad range of publishing formats and organisations, including heritage sites, libraries and temporary exhibitions, the book argues that the production and consumption of printed media within the context of collecting institutions occupies a unique and privileged role in the creation and communication of knowledge. Acknowledging that books offer functions beyond communication, Hughes argues that this places books published by museums in a unique relationship to institutions, with staff acting as producers and visitors as consumers. The logistical and ethical dimensions of museum and gallery publishing are also examined in depth, including consideration of issues such as production, the impact of digital technologies, funding and sponsorship, marketing, co-publishing, rights, and curators' and artists' agency. Focusing on an important but hitherto neglected topic, Museum and Gallery Publishing is key reading for researchers in the fields of museum, heritage, art and publishing studies. It will also be of interest to curators and other practitioners working in museums, heritage and science centres and art galleries.

National Gallery of Art [General Information and Guide to the Galleries] National Gallery of Art (U.S.) 1961

National Galleries Simon Knell 2016-01-22 Are national galleries different from other kinds of art gallery or museum? What value is there for the nation in a collection of international masterpieces? How are

national galleries involved in the construction national art? National Galleries is the first book to undertake a panoramic view of a type of national institution – which are sometimes called national museums of fine art – that is now found in almost every nation on earth. Adopting a richly illustrated, globally inclusive, comparative view, Simon Knell argues that national galleries should not be understood as 'great galleries' but as peculiar sites where art is made to perform in acts of nation building. A book that fundamentally rewrites the history of these institutions and encourages the reader to dispense with elitist views of their worth, Knell reveals an unseen geography and a rich complexity of performance. He considers the ways the national galleries entangle art and nation, and the differing trajectories and purposes of international and national art. Exploring galleries, artists and artworks from around the world, National Galleries is an argument about how we think about and study these institutions. Privileging the situatedness of each national gallery performance, and valuing localism over universalism, Knell looks particularly at how national art is constructed and represented. He ends with examples that show the mutability of national art and by questioning the necessity of art nationalism.

Fate, Glory, and Love in Early Modern Gallery Decoration
Margaretha Rossholm Lagerlof 2017-07-05
Analysing the decorative programmes of the most opulent European palaces of the time, Margaretha Rossholm Lagerlof investigates how meaning was conveyed through display and visual effects. She explores the visual meaning inherent in the scheme of spatial relations; in effects of scale, perspective, lighting, figures' positions and postures; and in relations among image types. The analysis concerns the interrelations of various kinds of images in the ensembles; the relations between images and physical site; and the address to the beholder. Lagerlof considers the visual impact of the imagery in conjunction with 'readable' or symbolically 'coded' meanings; thus, the study does not merely subject these decorations to formalist aesthetic principles. She shows the visual meaning generally to sustain the verbal or readable messages, but often in subtle ways, extending or elaborating the meaning. Occasionally, the visual meaning comes forth as an undercurrent or complication, deviating from the proclaimed and symbolic meaning. *Fate, Glory, and Love in Early Modern Gallery Decoration* contributes to the body of scholarship on visual rhetoric and on how images 'act' out their messages.
