**American Labyrinth** Raymond Haberski, Jr. 2018-12-15 Intellectual history has never been more relevant and more important to public life in the United States. In complicated and confounding times, people look for the principles that drive action and the foundations that support national ideals. American Labyrinth demonstrates the power of intellectual history to illuminate our public life and examine our ideological assumptions. This volume of essays brings together 19 influential intellectual historians to contribute original thoughts on topics of widespread interest. Raymond Haberski Jr. and Andrew Hartman asked a group of nimble, sharp scholars to respond to a simple question: How might the resources of intellectual history help shed light on contemporary issues with historical resonance? The answers—all rigorous, original, and challenging—are as eclectic in approach and temperament as the authors are different in their interests and methods. Taken together, the essays of American Labyrinth illustrate how intellectual historians, operating in many different registers at once and ranging from the theoretical to the political, can provide telling insights for understanding a public sphere fraught with conflict. In order to understand why people are ready to fight over cultural symbols and political positions we must have insight into how ideas organize, enliven, and define our lives. Ultimately, as Haberski and Hartman show in this volume, the best route through our contemporary American labyrinth is the path that traces our practical and lived ideas.

Wikipedia

*Muslims' Perceptions of the Bush Doctrine* Masoud Bonyanian 2009 This book is an investigation of Muslims' perceptions of Islamic Fundamentalism and of United States foreign policy. It specifically deals with the impact of the "Bush Doctrine" and examines how this doctrine served as a "social-political mechanism" for mobilizing many Muslims. The book offers guidance in how to end an era of distrust and discord between the Muslim and Western worlds.

**Type 1 Diabetes in Children, Adolescents and Young Adults - 7th US edition** Ragnar Hanas 2019-11-04 This practical, easy to read book tells you everything you need to know to take good care of your diabetes. Having diabetes means that you need to make yourself better informed about this condition than the average doctor. In this remarkable book, Dr Ragnar Hanas shows you step-by-step how to become an expert in your own diabetes. Medical research has conclusively proved that looking after your diabetes and keeping your blood glucose level down is the key to avoiding the pitfalls and long-term risks. This book gives you all the strategies, tips and tricks to get your blood glucose down and keep it in control. By understanding your Type 1 Diabetes and how to manage it, you can live a full, happy and healthy life. Remember: you have diabetes - it doesn't 'have' you! This practical handbook gives you:
•A step-by-step guide to achieving optimal health with diabetes for young people with Type 1 Diabetes and their parents, as well as health care professionals, teachers, schools, councillors and many others.
•Straightforward guidance on blood glucose, hypos, healthy eating, exercise, illness, smoking, travel and many other topics.
•Practical checklists and stories of other people with diabetes.
•Details of support groups and organisations to go to for further help and support.
•An extensive glossary defining 178 medical terms.
•Over 400 illustrations and cartoons.

**Diabetes Education** Trisha Dunning 2012-11-05 Diabetes education is a process, the key to which is establishing a therapeutic relationship with the individual. The overall goal of diabetes education is to enhance the individual's health capability, including their ability to solve problems and apply the learning to self-care. Thus, diabetes education is an interactive process of teaching and learning where information is co-generated. This innovative and thought-provoking new book explores the 'how' of diabetes education, rather than the 'what' and the 'why'. Diabetes Education: Art, Science and Evidence helps healthcare practitioners teach diabetes effectively from diagnosis onwards and ensure people living with diabetes receive individualised support and information. It enables practitioners and educators to examine and reflect on their practice when managing the person with diabetes. Bringing together all the thinking and experience of the diabetes journey in one text, this book is essential reading for all practitioners and students involved in diabetes care. SPECIAL FEATURES: Features short stories, case studies, illustrative quotes, practice points and reflection points throughout Edited by an internationally renowned expert in the field Contributions from some of the world's leading diabetes educators This title is also available as a mobile App from MedHand Mobile Libraries. Buy it now from iTunes, Google Play or the MedHand Store.

*Legal and Ethical Issues of Live Streaming* Shing-Ling S. Chen 2020-10-14 Legal and Ethical Issues of Live Streaming explores the potential legal and ethical issues of using live streaming technology, citing that although live streaming has a broadcasting capability, it is not regulated by the Federal Communications Commission, unlike other broadcasting media such as radio or television. Without this regulation, live streaming is opened up for broad use and misuse, including broadcasts of horrifying incidents such as the mass shootings at mosques in Christchurch, New Zealand in 2019, sparking outrage and fear about the technology. Contributors provide a pathway to move forward with ethical and legal use of live streaming by analyzing the wide spectrum of critical issues through the lens of communication, ethics, and law. Scholars of legal studies, ethics, communication, and media studies will find this book particularly useful.

**International Diplomacy and the Olympic Movement** Aaron Beacom 2012-07-31 This book explores the relationship between diplomatic discourse and the Olympic Movement, charting its continuity and change from an historical perspective. Using the recent body of literature on diplomacy it explores the evolution of diplomatic discourse around a number of themes, in particular the increasing range of stakeholders engaged in the Olympic bid, disability advocacy and the mainstreaming of the Paralympic Games and the evolution of the Olympic boycott. The work addresses the increasing engagement of a number of non-state actors, in particular the IOC and the IPC, as indicative of the diffusion of contemporary diplomacy. At the same time it identifies the state as continuing in the role of primary actor, setting the terms of reference for diplomatic activity beyond the pursuit of its own policy interests. Its historical investigation, based around a UK case study, provides insights into the characteristics of diplomatic discourse relating to the Games, and creates the basis for mapping the future trajectory of diplomacy as it relates to the Olympic Movement.

*Tales of Hi and Bye* Torbjörn Lundmark 2009-10-27 We do it over and over again, day after day, and never seem to get enough of it. Albanians do it. Zulus do it. Movie stars and plumbers do it. All around the world, people say hi and bye in innumerable languages and countless ways: they wave and bow and curtsy and shake hands and rub noses and fist-bump and mwah-mwah and perform a vast array of greeting and farewell rituals, so common and natural that no-one stops to notice ... Tales of Hi and Bye provides a delightful, witty, and intriguing insight into the sometimes strange and often wonderful customs associated with an ordinary, everyday event. For more information, book extracts and cartoons visit www.talesofhiandbye.com

**Russian Foreign Policy Beyond Putin** Eugene B. Rumer 2017-10-03 Russias resurgence as an assertive actor in the global diplomatic arena after a long period of introspection and preoccupation with domestic troubles, and the economic revival that underpins it, are among the most striking developments in international relations of recent years. But what drives Russian foreign policy at the end of the Putin era? To what extent is it shaped by Russias role as a major energy supplier, and how long can the country remain an energy superpower, if indeed it is one? How might Russian foreign policy change in the years ahead? Which way will Russia, faced with the might of growing powers around it, and struggling with the fragility of its economic success and stability at home, choose to face in international relations? This Adelphi Paper examines the domestic context of contemporary Russian foreign policy and its key political, economic, military and security drivers, as well as looking at the contrasting outlook that preceded it, and at how Russias international posture may adjust again in the coming years. It concludes with recommendations for Western policy makers on how to respond to Russias return.

**Autoimmune Disorders** Melissa Abramovitz 2011-06-21 Autoimmune disorders, of which there are more than eighty types, causes a person's body to attack itself. A very important fact about these disorders is that through diet, intestinal healing, and detoxifying the body and environment, sufferers can actually restore their immune system to good health. Author Melissa Abramovitz helps your readers and young researchers to explore autoimmune disorders in detail, covering their diagnosis, treatments and therapies, and medical advances. Detailed charts, graphs, and sidebars will prove a useful tool for grabbing quick information essential to the topic of this disorder group.

**Days of Fire** Peter Baker 2013-10-22 In Days of Fire, Peter Baker, Chief White House Correspondent for The New York Times, takes us on a gripping and intimate journey through the eight years of the Bush and Cheney administration in a tour-de-force narrative of a dramatic and controversial presidency. Theirs was the most captivating American political partnership since Richard Nixon and Henry Kissinger: a bold and untested president and his

seasoned, relentless vice president. Confronted by one crisis after another, they struggled to protect the country, remake the world, and define their own relationship along the way. In Days of Fire, Peter Baker chronicles the history of the most consequential presidency in modern times through the prism of its two most compelling characters, capturing the elusive and shifting alliance of George Walker Bush and Richard Bruce Cheney as no historian has done before. He brings to life with in-the-room immediacy all the drama of an era marked by devastating terror attacks, the Iraq War, Hurricane Katrina, and financial collapse. The real story of Bush and Cheney is a far more fascinating tale than the familiar suspicion that Cheney was the power behind the throne. Drawing on hundreds of interviews with key players, and thousands of pages of never-released notes, memos, and other internal documents, Baker paints a riveting portrait of a partnership that evolved dramatically over time, from the early days when Bush leaned on Cheney, making him the most influential vice president in history, to their final hours, when the two had grown so far apart they were clashing in the West Wing. Together and separately, they were tested as no other president and vice president have been, first on a bright September morning, an unforgettable "day of fire" just months into the presidency, and on countless days of fire over the course of eight tumultuous years. Days of Fire is a monumental and definitive work that will rank with the best of presidential histories. As absorbing as a thriller, it is eye-opening and essential reading.

**Emerging Conflicts of Principle** Thomas Kane 2016-04-29 Debates over the ethics of war, economic redistribution, resource consumption and the rights and responsibilities associated with membership of a political community are just some of the major conflicts of principle identified by Thomas Kane which characterize world politics today. According to the author, debates such as these are being drawn towards increasingly polarized positions represented by strongly universalist and particularist moral and political ideologies, such as cosmopolitanism and republicanism. Kane analyzes each of these areas, identifying that the potential for ideologically-driven conflict will constitute the greatest challenge facing scholars and policy makers in the twenty-first century.

*Strategic Sport Marketing* David Shilbury 2020-07-25 Sport now has to compete for the consumer dollar with a vast array of leisure activities online as well as offline. Successful sport marketing is the result of carefully structured planning, creativity and perseverance. Integrating the unique characteristics of sport with traditional marketing theory, Strategic Sport Marketing presents a framework of strategic decision-making. The authors outline the diverse markets for sport: participants, sponsors, spectators and fans. International case studies and 'sportviews' selected from a wide range of sports and media illustrate the unique features of sport marketing. Strategic Sport Marketing is a practical tool and theoretical guide to sport marketing internationally. The fourth edition of this widely used text is fully revised and updated. It includes new material on sports promotion, customer service and social media, as well as new case studies. 'A sport marketing text at the undergraduate level needs to engage both student and teacher. . . I believe Strategic Sport Marketing does this rather well.' - Sport Management Review ' . . . a comprehensive illustration of the integration of sport marketing theory with sport marketing practice.' - Journal of Sport Management

**Soulful Corporations** Shashank Shah 2013-09-02 In the light of multiple corporate debacles, financial crises and environmental disasters across the globe, the need for corporate goals to transition from simply maximising shareholder wealth to optimising stakeholder welfare is being echoed in various quarters. This book makes a distinct contribution by looking at Corporate Social Responsibility (CSR) from a values-based perspective with a focus on providing a balance between corporate success and social well-being. The book emphasizes that corporations need to redefine their purposes to co-create long-term, sustainable and win-win solutions for multiple stakeholders through mutually-fulfilling and value-adding collaborative efforts. Through the ideal of 'A Soulful Corporation', the book proposes a new story where corporations, as associations of individuals, can identify their 'collective spirits' in terms of environmentally-aware, socially-inclusive and financially-rewarding missions. Some of the unique features of the book include:
· A detailed study of the evolution of CSR from the ancient to contemporary times
· Insights gained through empirical research and personal interviews with over 100 industry captains, CEOs, MDs and heads of the CSR function across companies and industries
· Case studies on CSR practices and processes in leading Indian companies including the Tata Group, TVS Motor, HUL, Wipro, L&T, Bharat Petroleum, HDFC Bank, Birla Group, Reliance Industries and others.
· Cases on unique social welfare projects in the areas of education, healthcare and drinking water supply
· A 'Society and Local Community Welfare Framework'and a '12-point Agenda for Affirmative Action' that propose policy recommendations and provide corporations with a roadmap for their CSR journey in the light of the mandatory CSR spending introduced by the Government of India. The book has relevance to multiple stakeholders: students, academics, CSR researchers, policy-makers, industry captains, business managers and entrepreneurs.

**A Study Guide for Roald Dahl's "Poison"** Gale, Cengage 2018-09-13 A Study Guide for Roald Dahl's "Poison", excerpted from Gale's acclaimed Short Stories for Students. This concise study guide includes plot summary; character analysis; author biography; study questions; historical context; suggestions for further reading; and much more. For any literature project, trust Short Stories for Students for all of your research needs.

**Obama, the Media, and Framing the U.S. Exit from Iraq and Afghanistan** Erika G. King 2016-05-23 Situating Obama's end-of-war discourse in the historical context of the 2001 terrorist attacks, Obama, the Media, and Framing the U.S. Exit from Iraq and Afghanistan begins with a detailed comparison with the Bush war-on-terror security narrative before examining elements of continuity and change in post-9/11 elite rhetoric. Erika King deftly employs two case studies of presidential and media framing - the weeks surrounding the formal announcements of Obama's December 2009 'surge-then-exit' strategy from Afghanistan and the end of combat operations in Iraq in August 2010 - to explore the role of mass media in presenting presidential narratives of war and finds evidence of an interpretive disconnect between the media and a president seeking to present a more nuanced approach to keeping America safe. Eloquently scrutinizing Obama's discourse on the U.S. exit from two post-9/11 wars and contrasting the presidential endgame frame with the U.S. mainstream media's narratives of the wars' meaning, accomplishments, and denouement provides a unique combination of qualitative content analysis and topical case studies and makes this volume an ideal resource for scholars and researchers grappling with the complicated and ever-evolving nexus of war, the president, and the media.

**"X-Men" Films**

*Global Politics as if People Mattered* Mary Ann Tétreault 2009-05-16 What would international relations look like if our theories and analyses began with individuals, families, and communities instead of executives, nation-states, and militaries? After all, it is people who make up cities, states, and corporations, and it is their beliefs and behaviors that explain why some parts of the world seem so peaceful while others appear so violent, why some societies are so rich while others are so poor. Now in a fully updated and revised edition, this unique text on contemporary global politics begins with people, treating them as "social individuals" with free will and human agency even as they are limited and disciplined by rules and rulers. Offering a fresh approach to global politics, this dynamic author team trades perspectives with each other and with such eminent social theorists as Michel Foucault and Hannah Arendt to develop their resonant theme. Using practical examples as well as theory, the authors show students how they can take charge of their lives and the politics that affect them, even in the context of a vast global economy and impersonal international forces that sometimes seem out of control. Filled with idealism, yet firmly grounded in current realities, Global Politics as if People Mattered is a fresh take on the proper place and potential of individuals in world politics—front and center, actively engaged in a way of life that is as politically personal as it is politically powerful. This distinctive text, a perfect reading for lower-division politics courses, helps students to carve out their own political space in the contemporary global order.
