Narrating Peoplehood amidst Diversity Michael Boss 2011-10-24 To what extent does peoplehood make sense today? Can plural societies tell national stories without marginalizing their minorities? Should historians be concerned with stories of peoplehood? These are the questions dealt with in this book. It describes, analyzes, and theorizes the nature and history of stories of peoplehood and their implications for national identities, public culture, and academic historiography in societies characterized by cultural and social diversity. The book offers theoretical reflections on the narrative character of national identities and empirical studies of the contexts in which they emerged.

The ABCs of Ethics Michael L. Buckner 2010-02-17 The ABCs of Ethics is designed for leaders, managers, professionals, students, and other people interested in improving ethical behavior within themselves, inside organizations, and throughout society. Michael L. Buckner answers the age-old question: "Does the end justify the means?" Using stories and anecdotes from his work as an attorney and a private investigator, Buckner concisely defines the issues surrounding this topic while encouraging contemplation regarding common questions of ethics and integrity. By using examples of corporate piracy, privacy issues, and commonplace dilemmas, he shows us how to create a newer, more modern definition of ethics for use in today’s society. The chapters in The ABCs of Ethics use the framework of the English alphabet to stimulate and facilitate the discussion of ethics. The ABCs of Ethics provides an understanding of both the legal and the philosophical foundations of ethics, while keeping the discussion relevant to today’s business, political, and legal environment. By discussing the role that “gray areas” play in ethics violations, and how the active pursuit of character development leads to more ethical behavior, this invaluable guide will help leaders and managers assess and successfully navigate potentially unethical situations in their business and personal lives.

Presidents, Oligarchs and Bureaucrats Margarete Klein 2016-04-08 Over the last decade the "transition paradigm", which is based on the conviction that authoritarian political systems would over time necessarily develop into democracies, has been subjected to serious criticism. The complex political and societal developments in the post-Soviet region in particular have exposed flaws in the claim that a shift from authoritarianism to democracy is inevitable. Using case studies from the post-Soviet region, a broad range of international contributors present an original and innovative contribution to the debate. They explore the character of post-Soviet regimes and review the political transformations they have experienced since the end of the Cold War. Through a combination of theoretical approaches and detailed, empirical analysis the authors highlight the difficulties and benefits of applying the concepts of hybrid regimes, competitive authoritarianism and neopatrimonialism to the countries of the post-Soviet space. Through this in-depth approach the authors demonstrate how "Presidents, Oligarchs and Bureaucrats" in the region lead their countries, examine the sources of their legitimacy and their relationship to the societies they govern and advance the general theoretical debate on regime change and transition paths.

International Law's Collected Stories Sofia Stolk 2020-12-19 This edited volume presents a collection of stories that experiment with different ways of looking at international law. By using different literary lenses -namely, storytelling, the novel, the drama, the collage, the self-portrait, and the museum- the authors shed light on elements of international law that usually remain unseen or unheard and expose the limits of what international law can do. We inquire into who the storytellers of international law are, the stages on which they tell their stories, and who are absent in these tales. We present it as a collection: a set of different essays that more or less deal with the same subject matter. Alternatively, we would like to call it a potpourri of stories, since the diversity of topics and approaches is eclectic and unconventional. By placing multiple perspectives alongside each other we aim to compare and contrast, to allow for second thoughts, and to rediscover. In doing so, we engage with the ambiguities of international law’s characters and spaces, and with the worldviews they reflect and worlds they create.

Red Hot Lies Christopher C. Horner 2008-11-11 Liars–Al Gore, the United Nations, the New York Times. The global warming lobby, relentless in its push for bigger government, more spending, and more regulation, will use any means necessary to scare you out of your wits--as well as your tax dollars and your liberties--with threats of rising oceans, deadly droughts, and unspeakable future consequences of "climate change." In pursuing their anti-energy, anti-capitalist, and pro-government agenda, the global warming alarmists--and unscrupulous scientists who see this scare as their gravy train to federal grants and foundation money--resort to dirty tricks, smear campaigns, and outright lies, abandoning scientific standards, journalistic integrity, and the old-fashioned notions of free speech and open debate. In Red Hot Lies, bestselling author Christopher Horner--himself the target of Greenpeace dirty tricks and alarmist smears--exposes the dark underbelly of the environmental movement. Power-hungry politicians blacklist scientists who reject global warming alarmism. U.S. senators threaten companies that fund climate change dissenters. Mainstream media outlets openly reject the notion of "balance."

The occasional unguarded scientist candidly admits the need to twist the facts to paint an uglier picture in order to keep the faucet of government money flowing. In the name of "saving the planet," anything goes. But why the nasty tactics? Why the cover ups, lies, and intimidation? Because Al Gore and his ilk want to use big government at the local, state, federal, and global level to run your life, and they can brook no opposition. But the actual facts, as Red Hot Lies makes clear, aren't nearly as scary as their fiction.

America: The Farewell Tour Chris Hedges 2019-08-27 Chris Hedges’s profound and unsettling examination of America in crisis is “an exceedingly...provocative book, certain to arouse controversy, but offering a point of view that needs to be heard” (Booklist), about how bitter hopelessness and malaise have resulted in a culture of sadism and hate. America, says Pulitzer Prize–winning reporter Chris Hedges, is convulsed by an array of pathologies that have arisen out of profound hopelessness, a bitter despair, and a civil society that has ceased to function. The opioid crisis; the retreat into gambling to cope with economic distress; the pornification of culture; the rise of magical thinking; the celebration of sadism, hate, and plagues of suicides are the physical manifestations of a society that is being ravaged by corporate pillage and a failed democracy. As our society unravels, we also face global upheaval caused by catastrophic climate change. All these ills presage a frightening reconfiguration of the nation and the planet. Donald Trump rode this disenchantment to power. In his “forceful and direct” (Publishers Weekly) America: The Farewell Tour, Hedges argues that neither political party, now captured by corporate power, addresses the systemic problem. Until our corporate coup d’état is reversed these diseases will grow and ravage the country. “With sharply observed detail, Hedges writes a requiem for the American dream” (Kirkus Reviews) and seeks to jolt us out of our complacency while there is still time.

Locating Postcolonial Narrative Genres Walter Goebel 2013-01-17 This volume explores how postcolonial texts have determined the evolution or emergence of specific formal innovations in narrative genres. While the prominence of questions of cultural identity in postcolonial studies has prevented due attention to concerns of literary form and aesthetics, this book gives premium to the literary, aiming to delineate the evolution of specific narrative techniques as part of an emerging postcolonial aesthetics. Essays delineate elements of an emergent postcolonial narratology across a variety of seminal generic forms, such as the epic, the novel, the short story, the autobiography, and the folk tale, focusing on genre as a powerful tool for the historicizing of literature and orature within cultural discourses. Investigating the heuristic value of concepts such as mimicry, writing back, translation, negotiation, or subversion, the book considers the value of explanatory paradigms for postcolonial generic models. It also explores the status of postcolonial comparative aesthetics versus globalization studies and liberal concepts of the transnational, taking issue with the prominence of Western concepts of identity in discussions of postcolonial literature and the favoring of mimetic forms. This volume offers a unique contribution to the study of narrative genre in postcolonial literatures and provides valuable insight into the field of postcolonial studies on the whole.

Ten Conversations You Must Have with Your Son Tim Hawkes 2016-10-11 Internationally recognized expert on raising and educating boys, Dr. Tim Hawkes shows parents of tween and teen boys how to approach difficult but important conversations. Every parent of a teenage boy knows there are certain conversations they must have with their son but often they put them off--or worse, don't have them at all--because they simply don't know where to start. In Ten Conversations You Must Have With Your Son, Dr. Hawkes provides parents with the essential information you need to negotiate your way through what can often be very difficult territory about the why, what, and how of ten key topics: love, identity, values, leadership, achievement, sex, money, health, living together, and resilience. Each chapter offers suggestions for how you can connect with your sons on these issues while sharing your own experiences and knowledge with your boys. A headmaster of 25 years, Dr. Hawkes is in a unique position to know what goes on inside the minds of teenage boys. He understands what they need to know to best prepare them for the opportunities, responsibilities, challenges and demands that life will make on them. Ten Conversations You Must Have With Your Son is the one book anyone with a teenage son should read to help them prepare him for adulthood.

Teaching and Learning Chinese Jinfa Cai 2010-07-01 The book is linked to the annual theme of the 2008 CAERDA International Conference with contributing authors serving as keynote speakers, invited panelists, paper presenters, as well as specialists and educators in the field. The book provides a most comprehensive description of and a theoretically wellinformed and a scholarly cogent account of teaching and learning Chinese in general and in the United States in particular. It examines a wide range of important issues in Chinese teaching and learning: current state in teaching Chinese as a Second Language (TCSL) in the United States, US national standards for learning foreign languages K-12, policy making about how to meet the growing demand for Chinese language and cultural education with regard to a national coordination of efforts, professional teacher training in terms of the quantity and quality of Chinese language teachers at all levels, promotion of early language learning, characteristics of Chinese pedagogy, aspects of Chinese linguistics, methods and methodology in teaching TCSL, techniques and technology in Chinese language education, curriculum and instruction in TCSL, cultural aspects of teaching Chinese as a Second Language, issues in Chinese pedagogy, development of Chinese as a Heritage Language (HL) and the issue of cultural identity for bilingual/multilingual learners (particularly bilingual/multilingual children), testing and evaluation in TCSL, Chinese literacy and reading, approaches to instruction and program design, etc.

Educational Assessment Robert J. Wright 2008 Educational Tests and Measurements in the Age of Accountability is a core text for use in a first level graduate course in educational measurement and testing. In addition to covering the topics traditionally found in core textbooks for this course, this text also provides coverage of contemporary topics (including national testing programs, international achievement comparisons, the value added assessment of schools and teachers, and the public policy debate on selective admissions vs. affirmative minority enrollment).

The War on Drugs in Sport Vanessa McDermott 2015-10-23 This book is an innovative and compelling work that develops a modified moral panic model illustrated by the drugs in sport debate. Drawing on Max Weber’s work on moral authority and legitimacy, McDermott argues that doping scandals create a crisis of legitimacy for sport governing bodies and other elite groups. This crisis leads to a moral panic, where the issue at stake for elite groups is perceptions of their organizational legitimacy. The book highlights the role of the media as a site where claims to legitimacy are made, and contested, contributing to the social construction of a moral panic. The book explores the way regulatory responses, in this case anti-doping policies in sport, reflect the interests of elite groups and the impact of those responses on individuals, or “folk devils." The War on Drugs in Sport makes a key contribution to moral panic theory by adapting Goode and Ben-Yehuda’s moral panic model to capture the diversity of interests and complex relationships between elite groups. The difference between this book and others in the field is its application of a new theoretical perspective, supported by well-researched empirical evidence.

The Painful Truth Lynn Webster 2016-11-01 The most common medical problem in America today, chronic pain is more prevalent than cancer, heart disease, and diabetes combined. Yet tens of millions of people struggle with pain because they can’t find someone who understands how much pain affects their lives--and because they live in a culture where pain is dismissed. Internationally recognized pain specialist Dr. Lynn Webster validates the debilitating nature of pain, offers practical answers, and helps you become a catalyst for changing the way pain is viewed in society. Drawing on his years of experience and the inspirational stories of others, he explores: - What a difference it makes to be heard - Why pain is much more than a symptom of disease - The benefits and risks of opioid prescriptions - How cultural attitudes toward pain affect us - The role of a caregiver in the journey of pain and recovery - How, even in the worst pain situations, you can have a fulfilling life The Painful Truth offers a path toward awareness, hope, and healing.

Emerging Conflicts of Principle Thomas Kane 2016-04-29 Debates over the ethics of war, economic redistribution, resource consumption and the rights and responsibilities associated with membership of a political community are just some of the major conflicts of principle identified by Thomas Kane which characterize world politics today. According to the author, debates such as these are being drawn towards increasingly polarized positions represented by strongly universalist and particularist moral and political ideologies, such as cosmopolitanism and republicanism. Kane analyzes each of these areas, identifying that the potential for ideologically-driven conflict will constitute the greatest challenge facing scholars and policy makers in the twenty-first century.
